

Hello,

I'm from the Center for Behavioral Intervention Technologies at Northwestern University.

My team has been meeting with members of administration at [REDACTED] for the past year, and we are very interested in learning more about how staff members at [REDACTED] approach their work, manage patients with mental health concerns and about how we might be able to use technology to support the delivery and coordination of mental health care.

I am the principal investigator of a research study titled "Implementing mobile apps for depression and anxiety in a community services agency." The IRB number of this study is [REDACTED]

I'm reaching out to you today because we are recruiting staff members within [REDACTED]. As a token of appreciation for completing this survey, you will have the opportunity to enter a lottery drawing to win one of four separate \$50 giftcards.

If you'd like to first contact me with questions, my email address is [REDACTED]
