Safety Team**

### • Master of Science degree in Healthcare Quality and Patient Safety

A two-year, part-time degree program which focuses on the knowledge, skills, and methods necessary for improving healthcare delivery systems. It is designed for both clinical and non-clinical professionals currently working in the healthcare setting who want to focus their career development on these important areas in healthcare.

### • Faculty Development Program in Healthcare Quality and Patient Safety

A one-year program designed for faculty who wish to develop the educational tools, methods, and curricular approaches for integrating healthcare quality and patient safety into the medical education curriculum.

### • Certificate Program in Healthcare Quality and Patient Safety

A one-year program designed for the learner who wants to acquire a comprehensive overview of these fields.

*The above programs are all part-time and do not require Chicago residence. Students are required to travel to our Chicago campus for a series of classroom-based intensive sessions. Accommodation is available at select local area hotels at a reduced rate.*
