March 5

Dear Doctor Black -

I am trying to arrange my trip so that I may have a chance to talk with you on my way back through Chicago but am afraid that it will be for a short time only.

The way it looks now I shall not be able to arrive in Chicago from New York until about 8 o'clock Saturday morning and will have to leave for Colorado at 9.30 and if you hear no more from me this arrangement will stand.

Mr. McKay is with me and we will arrive in Pennsylvania Train No. 25 out of New York.

I know that you are somewhat of an early bird and I am hoping that you can find it convenient to be at the College Saturday A. M. as early as that and

will come direct there.

I have an interesting specimen with me that I want you to see and talk about.

With kindest regards

Fredrick S. McKay
