

Mailed to Members of the American Section

Jacksonville, Ills. Oct. 18-1892

Dear Doctor Kirk; -

Your name has been handed to me as a member of the committee on Nomenclature for the Worlds Dental Congress. The resolution creating this committee is as follows: "It is desirable that this committee present a plan by which a universal system of nomenclature may be adopted by the Congress that would be acceptable to the profession of the entire world."

To carry out the intention of this resolution will be an exceedingly difficult matter and will require the united effort of all of its members to render it successful. Therefore the chairman wishes an expression from you at the earliest moment as to any views you may entertain as to the work, or any part of it.

Any plans for this work that you may transmit to the chairman will be promptly laid before the other members of the committee for their opinion of its merits hoping that in this way the work may rapidly assume tangible form and lead to results.

The chairman also wishes your views as to meetings of the committee, or of the American section of it.

P. Sidney Spokes

~~Dear Doctor Spokes.~~ Dear Sir

Your name has been handed me as one of the members of the Committee on Nomenclature for the Worlds Dental Congress Which is to meet in Chicago next year. The resolution creating this Committee reads as follows; "It is desirable that that this committee present a plan by which a universal system of nomenclature may be adopted by the Congress that will be acceptable to the profession of the entire world." To carry out the intention of this resolution will be an exceedingly difficult matter, and will require the united effort of all of the members of the Committee to render it successful. Therefore the Chairman wishes an expression from you at the earliest moment as to the views you may entertain as to the work, or any part of it. Any plans for this work that you may transmit to the Chairman will be promptly laid before the other members of the Committee for their opinion of their merits hoping that in this way the work may rapidly assume tangible form, and lead to results.

The Chairman also wishes your views as to meetings of the Committee.

Yours truly,
